

Staufix FKA auto. backwater valve DN 100, Floor slab, black

Article information

Item no.: 84100S GTIN: 4026092046371 Price group: 30

Advantages

- Safe, motor-driven closure system with optical probe
- Fast, simple and toolless maintenance
- Available as a complete set or module set

Description

The Premium automatic backwater valve for faecal and faecal-free wastewater is equipped with a motor-driven closure system which is closed automatically in the event of backwater. A second closure system serves as an emergency closure to be closed by hand. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface. Thanks to the modular KESSEL system, existing systems can easily be converted to a Pumpfix F backwater pumping station.

Variant	
Emergency closure:	yes
Protection class, probe:	IP 68 (3m/48h)
Motor-driven backwater flaps:	1
Mechanical backwater flaps:	1
General characteristics	
Colour:	black
Standard:	EN 13564
Nominal size (DN):	100
Outer diameter (OD):	110 mm
Type of wastewater:	with sewage
Installation situation:	floor slab installation
Delivery state:	Pre-mounted for final assembly on site (sensor
	system must be fitted on site and control unit must
	be connected)
Backwater protection:	Туре З
Motor type:	KSM 140
Type de protection moteur:	IP 68 (3m/48h)
Cable length:	5 m
